04 Executive Summary

L&T Technology Services (LTTS) delivered a resilient performance in Q2FY26 with revenues at ₹29,795 million, up 4.0% QoQ and 15.8% YoY. In USD terms, revenues grew by 1.3% sequentially and 10.4% YoY in constant currency. Net income increased 4.1% QoQ to ₹3,287 million. The period was marked by strong large-deal momentum, achieving a record TCV of near-USD 300 million, showcasing persistent enterprise demand for LTTS' digital engineering capabilities.

05 Investment Thesis

LTTS' 'Go Deeper to Scale' and multi-segment strategy continues to drive robust growth amidst volatile global conditions. Strong execution in the Sustainability segment, which saw double-digit annual growth for two consecutive quarters, combined with resilience in the Tech segment, positions the company well. Targeted investments in Gen AI, Agentic AI, and Physical AI, alongside the launch of proprietary platforms (e.g., Qguard.ai, FusionWorld.ai), have strengthened its tech capabilities and started contributing to early monetization, with licenses accounting for 1% of trailing 12-month revenue.

06 Management Commentary

CEO & Managing Director Amit Chadha highlighted the company's strong momentum in large-deal wins, touching near-USD 300 million TCV. He noted that despite shifting market dynamics, the Sustainability segment has grown 12.6% YoY and now features a USD 50 million account on an annual run-rate basis. He also stated that with an increased order book and a focus on profitable growth, both revenue and EBIT margins are expected to improve in H2 compared to H1 FY26, supporting their aspiration for double-digit growth in FY26 and their medium-term target of USD 2 billion in revenue.

07 Outlook

Management has reiterated its medium-term outlook of achieving USD 2 billion in revenue. LTTS aspires for double-digit revenue growth in FY26, with expectations of improving both revenue and EBIT margins in the second half of the fiscal year compared to the first half.
